DETAILED ACTION

Response to Arguments

1. Applicant's arguments, see Remarks, filed 9/19/05, with respect to the prior art rejections of claims 15, 17, 18 and 22-26 have been fully considered and are persuasive. The rejections of the above listed claims have been withdrawn.

2. The examiner acknowledges that claims 27 and 28 are canceled and the subsequent limitations have been added to claims 15, 17 and 18. Because the claims are canceled the objection to claims 27 and 28 are also withdrawn. And because the limitations of claim 27 were added to claims 15, 17 and 18, the application is now in condition for allowance.

Allowable Subject Matter

3. Claims 15-26 are allowed.

4. The following is an examiner's statement of reasons for allowance: The prior art made of record fails to teach or fairly suggest an adhesive that is applied on an exposed planar surface of a seal that corresponds to an exposed planar surface of an electrolyte membrane or that one electrode has a larger planar surface area than the other electrode. The prior art does allow for the use of adhering materials but not specifically an adhesive nor where in particular it should be properly applied in the MEA.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
